

Exemplar Information Texts – “Wind Power”

“Wind Power.” *National Geographic Young Explorers* November/December 2009. (2009)

Wind is air on the move.
See what wind can do.

Wind can whip up some fun!

Wind starts with the sun.
The sun warms land and water.
The air above warms up too.

Warm air rises.
Cooler air rushes in.
That moving air is wind.

Wind is energy.
It can push a sailboat.

Look at the windmills spin!
They turn wind energy into electricity.
What else can wind do?
